SAFEGUARDING AND PROTECTING CHILDREN AND YOUNG PEOPLE POLICY

INTRODUCTION

Archery GB is fully committed to supporting all children and young people to achieve their potential in archery and to providing information to educate people about best practice. We understand that providing a positive environment where children and young people are protected from harm is vital for making sure we give them the best possible outcomes. Protecting the well-being of under 18's needs to be a priority for everyone involved in archery.

**Archery GB Chair

FOREWORD BY MICHELLE NORTH, NSPCC CPSU SERVICE HEAD

Sport and physical activity play a positive role in the lives of many children and young people. As well as the obvious health benefits, it has the power to do so much more - children can gain important social and life skills by being involved in sport along with bringing communities together. For children and young people to enjoy a lifelong love of sport it is key that they feel safe taking part and have fun. That is why it is important everyone involved in providing sport does as much as possible to create and maintain positive and safe sporting opportunities.

This policy builds on learning from both within archery and the wider sports community and from other sectors and sets out what everyone involved in archery should do to play their part in promoting the positive aspects of sport for children and young people. It also tells you what to do if you have a concern about a child or young person.

The NSPCC's Child Protection in Sport Unit is pleased to continue to endorse the work done by Archery GB.

DEFINITION OF A CHILD

A child or young person as defined in this policy is a person under the age of 18. Archery GB has no minimum age for a child joining the sport. However, before joining Archery GB, a risk assessment should be carried out to ensure the child can fully understand instructions to ensure safety rules are adhered to. Safety of all participants should not be compromised.

PURPOSE OF POLICY

Everyone involved in archery in a paid or voluntary capacity, including contractors and commissioned service providers must abide by Archery GB's Safeguarding and Protecting Children and Young People Policy, Procedures, Code of Conduct and guidance relating to young people including:

- ▶ The recruitment of persons working with young people and the use of the Disclosure and Barring Service (DBS), Access NI, and Protecting Vulnerable Groups (PVG) checks in recruitment and employment.
- ▶ Anti-bullying
- ▶ Taking and the use of photographic and recorded images of young people
- ▶ Communication with and supervision of young people
- ▶ Online and social media guidance
- ▶ Planning events, competitions, tours

This policy has been produced to promote the safety and welfare of young people and protect them from harm. It builds on learning from both within archery, the wider sports community and from other sectors. It sets out the commitments made by Archery GB and what everyone involved in archery should do to play their part in promoting the positive aspects of the sport. Archery GB works collaboratively with Sport England, and the NSPCC Child Protection in Sport Unit (CPSU) to ensure that we safeguard at every level.

Safeguarding is the responsibility of everyone within Archery GB, this includes the board, staff, volunteers, coaches, officials, clubs, counties, regions, home nations, members, contractors, and commissioned service providers.

For safeguards to be effective across the sport we recognise the need for proactive leadership from our Senior Management Teams, i.e., the Board, CEO, Chairs, Trustees and Committees.

GENERAL PRINCIPLES

The following general principles regarding safeguarding and protecting young people should be applied by everyone within Archery GB

- ▶ The safety and welfare of children and young people is paramount.
- ▶ The views and opinions of young people are sought, considered, and integrated into all aspects of archery.
- ▶ All young people, regardless of age, disability, gender reassignment, race (including ethnic origin, nationality and colour), religion or belief, sex (gender) and sexual orientation have the right to be protected from harm.
- ▶ It is recognised that some young people have additional vulnerability, which may be due to disability, language, sexual orientation, culture or the fact that they perform in an elite environment. It is therefore important to raise awareness of additional risks and address particular needs, as required – refer to Good Practice.
- ▶ The rights, dignity and worth of all young people should always be respected.
- ▶ Safeguarding is everyone’s responsibility, but the child protection experts would determine whether or not abuse has taken place. However, everyone should report their concerns.
- ▶ Statutory agencies have a role in safeguarding young people and information should be shared with them as appropriate.
- ▶ This policy is only effective when archery works in partnership to support the implementation, monitor and evaluate its progress.
- ▶ The policy, procedures, code of conduct and good practice relating to the safeguarding and protecting of young people need to be:
 - a. applied in relation to activities for young people
 - b. applied where young people may be involved in working with adults e.g. when judges and coaches under 18 years of age work alongside adults
